1ST QUARTER 2021 (31/3/21)

Principal Investment Strategy

The objective of Smead US Value UCITS Fund (the "Sub-Fund") is to provide investors with long-term capital appreciation. To achieve its investment objective, the Sub-Fund will invest in US securities issued by approximately 25-30 listed companies (the number of which will be maintained in its portfolio) and will typically invest in the common stocks of large capitalization ("large-cap") US companies. The Sub-Fund considers large cap companies to be those publicly traded US companies with capitalizations exceeding \$5 billion.

Investment Philosophy

1. **Valuation matters dearly.**
2. **We are business owners on behalf of our clients.**
3. **We seek out high-quality businesses.**

The Eight Criteria

Over the entire holding period, each holding is required to:

- » Meet an economic need
- » Boast a strong competitive advantage (wide moats or barriers to entry)
- » Have a long history of profitability and strong operating metrics
- » Generate high levels of free cash flow
- » Be available at a low price in relation to its intrinsic value

Favored, but not required, criteria include:

- » Management's history of shareholder friendliness
- » Strong balance sheet
- » Strong insider ownership (preferably with recent purchases)
